## eMove EV portable charger

Item no: 502003

### eMove EV portable charger

Mode 2 | Type 2

eMove Mode 2 is a portable charger for electric vehicles that has been made with the user in mind. Unique features, unmatched user-friendliness and extreme durability for safe charging on the move.

**Efficient cable management:** Cable clips and guides keep the cable tidy and convenient to bring with you.

**Robust and durable:** Aluminum housing ensures a long product life, even in rough conditions

**Easy to wind:** The markets most flexible cable, even in temperatures down to -40°C

**Flexible mounting options:** Use wall bracket included with the product or hang from hook

**Safe power connection:** It checks temperature in domestic plug and control box and charging will stop if temperature becomes too high

**User-friendly:** Intuitive interface

**Power Adjustment:** User can reduce charging current to protect the infrastructure where the cable is connected

**High mode:** High mode provides faster charging for the first 120 minutes (see table)

**eMove - made with the user in mind.**

#### Technical specifications

Ratings	See Item no. list
Rated voltage	230 V AC (1-phase, 50-60Hz)
Charging type	Mode 2
Plug for connection to grid from socket	See table
Connection to vehicle	Type 2 
RCD	30 mA AC & 6mA DC
GRID type	Seamless TN & IT grid
Overheat protection	In ICCB & domestic plug
Operating temperature [°C]	-40°C to +50°C
Storage temperature [°C]	-50°C to +85°C
Size ICCB (L x W x T)	310 x 85 x 55 mm
Material control box (ICCB)	Aluminium with double protected plastic end caps
IP rating vehicle plug	IP 44
IP rating control box (ICCB)	IP 67
Weight	2,1 kg
Certification	CE, IEC 61851, IEC 62752, IEC 62196
Recycling	EE-waste
