KEY FEATURES / UNIQUE SELLING POINTS (USP)

WATER- AND DUSTPROOF - IP68

Tested according to IP68 ensures water proof (2m) and dustproof protection. Designed for trouble-free usage in the field even in wet, dirty or dusty conditions.

DC CONVERTER TECHNOLOGY

The DC Converter electronic setup makes the LED chip run more efficiently, reducing the heat development and decreasing the energy consumption, while delivering maximum light output.

SOFT FOAM PAD

The soft foam pad on the back of the lamp head gives you extra comfort on the forehead. You no longer have to worry about a sore forehead, when wearing the headlamp for longer periods of time.

HELMET MOUNT COMPATIBLE

The helmet mount is an accessory of the S-series headlamps that will let you fit the headlamp securely on your safety helmet, using the mounting slot in front fitted on most safety helmets.

DUAL OPTICS

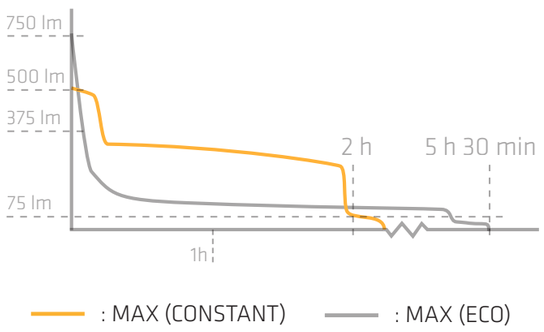

The S4 rechargeable has two different optical lenses. One lens creating a wide flood light, providing an even distributed light covering a large area. The second optical lens is a mixed beam lens providing a 20 degree spot with a 60 degree stray light.

DUAL ENERGY

Suprabeam S4 rechargeable is designed to run with the new Suprabeam DUAL ENERGY concept, which allows you to use the headlamp with 3xAAA alkaline batteries or the Suprabeam 1400 mAh Li-Po battery with built-in charger.
