

REACH & RoHS - Declaration of compliance

REACH Certificate of conformity

The European chemicals regulation REACH (EC) No. 1907/2006 deals with the registration, evaluation, approval and restriction of chemicals. All companies that manufacture, import, distribute or use a substance as such, or in a mixture or an article, are affected by the REACH-directive. The purpose of the regulation is to ensure a high level of protection for health and the environment. All chemical substances manufactured in or imported into the EU, in quantities exceeding 1 ton per year, must be registered with the European Chemicals Agency, ECHA, in Helsinki.

This is to declare that Kamic Installation AB understands and fulfills the requirements according to the REACH Regulation (EC) No. 1907/2006 on registration, evaluation, approval and restriction of chemicals and that any of **the products in the product family Gennius does not contain any of the REACH SVHCs** on the candidate list table on its last version (as of the date of this declaration). Some of these products, though, may include portable batteries which will not be in contact with humans under normal conditions of use including its disposal and are therefore exempt from REACH by Article 7(2).

Products from Kamic Installation AB are defined as goods according to REACH and contain no substances that are on the candidate list, above 0.1% by weight. Kamic Installation AB is continuously informed about when new substances and their areas of application are added to the candidate list or are subject to restrictions according to annex XVII to the REACH regulation.

RoHS Certificate of conformity

Kamic Installation AB declares that **all products in the product family Gennius are compliant** with European Parliament Directives 2002/95EC (RoHS), 2011/65/EU (ROHS II) and 2015/863 (RoHS 3) and do not use any RoHS restricted material during the manufacturing, storage or handling process.

RoHS restricted substances (maximum concentration values)

Lead (0,1%)
Mercury (0,1%)
Cadmium (0,01%)
Hexavalent Chromium (0,1%)
Polybrominated biphenyls (PBB) (0,1%)
Polybrominated biphenyls ethers (PBDE) (0,1%)
Bis (2-ethylhexyl) phthalate (DEHP) (0,1%)
Butyl benzyl phthalate (BBP) (0,1%)
Dibutyl phthalate (DPB) (0,1%)
Diisobutyl phthalate (DIBP) 0,1%)
