Dear Sir or Madam,

As a manufacturer of electrical test equipment, we are a downstream user (manufacturer of products) according to the REACH regulation. According to the information of our suppliers, the materials we use do not contain substances of the SVHC candidate list (ECHA 219 substances) or the maximum permissible limits are observed, respectively.

We have agreed with our suppliers that they provide us only with REACH and RoHS conformant products. If the products fail to conform with the regulations and directives, the suppliers are obliged to inform us immediately.

Should we be made aware that our products are subject to the obligation to notify, we will inform our customers accordingly.

We confirm that the production of our standard products conforms with the RoHS directive and its further applicable requirements.

For specific products and their areas of use we are registered with EAR (foundation "Register of Waste Electrical Equipment") under Reg. no. WEE/DJ2235XR according to the WEE directive in order to ensure expert disposal of devices marketed by us.
