

Statement

我司储能产品机柜外壳选用高强度的 SGCC 材质，基材熔点高达 1500°C，满足 EI60 的防火等级要求，表面镀有一层锌，耐腐蚀性能好，且表面光滑，不易沾灰尘。

Our energy storage product cabinets feature high-strength SGCC material for their enclosures. With a base material melting point of up to 1500° C, they meet the EI60 fire rating requirements. The surface is coated with a layer of zinc, offering excellent corrosion resistance and a smooth finish that resists dust accumulation.
